RE: CAP Funding - Home Modifications

Each state authorizes an amount of money for home modifications for financially eligible families. These funds are administered by (and applications should be submitted through) local Community Action Programs (CAP). The amount of funds available may vary but could be up to \$25,000 per family. One requirement is that the entire home meet local building codes and this may increase the total cost of the project. For more information (or to apply) contact your CAP agency:
